BOSSNET™

The flexible, adaptive, intuitive EMR solution

BOSSnet is a comprehensive clinical information system which provides an innovative, flexible and powerful EMR solution. It is a customisable, intuitive and adaptive EMR which makes daily clinical practice easier by enabling greater speed and quality in capturing and distributing health information.

Key Features of BOSSnet EMR Solution

The BOSSnet software suite delivers operationally smart IT solutions and is a powerful tool to assist hospital staff to improve patient outcomes.

COMPLETE EMR
BOSSnet is customisable to allow flexible, affordable implementation as a standalone EMR solution or an integrated application.

MODULAR
To allow hospitals to customise their deployment strategy to suit budget and hospital health information needs.

FAST & ACCURATE
Provides clinicians with comprehensive patient health information for faster, accurate diagnosis leading to better patient outcomes.

USER FUNCTIONALITY
Intuitive and clever suite, loaded with inbuilt and user generated functionality to maximise data capture, interoperability and usability.

INTEGRATES
Integrates with legacy information systems or can be developed as a comprehensive EMR solution.

AFFORDABLE
Cost effective and affordable solutions mean that you can start your journey towards an enterprise EMR solution today.

WEB BASED / MOBILE
BOSSnet is a web based application that is intuitive, user friendly and can be used anywhere, desktop, tablet or mobile.

24/7 SUPPORT
Accessible, responsive, ongoing support and comprehensive training.
